

Heating & Cooling Systems

Preferred™ Series Air Conditioners

featuring

Puron
ADVANCE™

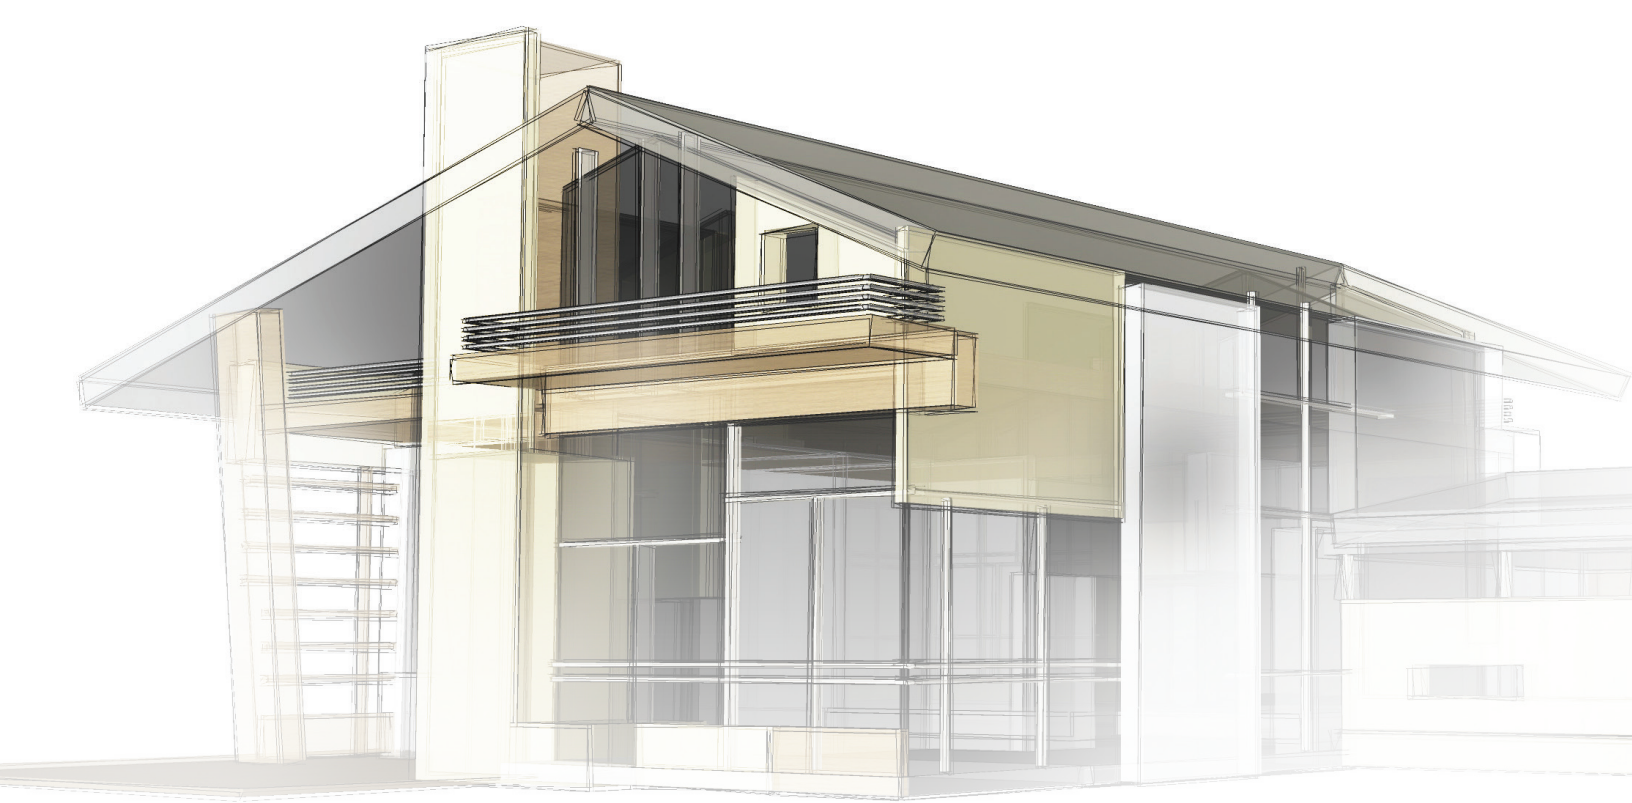

Qualifying
Systems Only

featuring

InteliSense™
TECHNOLOGY

Models 148T, 146S

Benefits of a **PREFERRED SERIES AIR CONDITIONER**

Increased energy savings

Two-stage scroll compressor (model 148T) increases efficiency and produces up to 18.0 SEER2 (Seasonal Energy Efficiency Ratio) and up to a 14.0 EER2 (Energy Efficiency Ratio).

Quiet operation

Smooth-running compressor provides naturally quiet operation. All models include a compressor sound blanket that further reduces noise.

Environmentally sound

Reliable compressor is designed for use with Puron Advance™ refrigerant to provide quiet comfort and years of environmentally responsible, energy-efficient operation. Puron Advance delivers a 75% decrease in global warming potential while maintaining original Puron's non-ozone depleting properties.

Smart service

Patent-pending IntelliSense™ technology can gather critical equipment performance data and share it with your Bryant dealer for a smarter, more efficient service experience.

ENERGY STAR® qualified

You can save energy, reduce greenhouse gasses and qualify for utility rebates where available.

Low or no-interest financing

The enhanced comfort and energy savings of our Preferred Series air conditioners is easier to afford than ever.¹

Rest easy with a long warranty

Preferred Series air conditioners offer a 10-year parts limited warranty upon timely registration.²

Excellent comfort **WHATEVER** the heat outside.

“Smart” Technology

An ecobee for Bryant smart thermostat can maximize your comfort and savings by learning your family's schedule, using local weather information and analyzing your home's heating and cooling patterns.³

featured **TECHNOLOGIES**

Complete Preferred system air conditioners feature these exclusive advancements.

DuraGuard Plus™ Protection

The Bryant DuraGuard Plus protection package provides lasting durability against weather and more with galvanized steel cabinets and baked-on powder paint.

Two-Stage Operation

Two-stage operation (model 148T) offers a number of benefits. Enjoy reduced energy consumption, more consistent indoor temperatures, quieter operation and better humidity management.

Gain more control with a complete **PREFERRED SYSTEM**

Ask your Bryant dealer about how you can maximize your home comfort system with additional Bryant products.

ecobee for Bryant THERMOSTAT

Achieve greater efficiency and whole-home comfort with this Wi-Fi®-enabled smart thermostat.

PREFERRED FURNACE

Properly matched with your outdoor unit to convert heating and cooling energy into greater indoor comfort.

FAN COIL

Works with your outdoor unit to convert heating and cooling energy and deliver more comfortable air to your home.

EVAPORATOR COIL

Matches to the proper outdoor unit to provide top cooling efficiency and years of reliable service.

AIR PURIFIER

Our patented Captures and Kills® technology treats 100% of the air flowing through your system.⁴

HUMIDIFIER

Alleviates dry air by adding moisture.

VENTILATOR

Transfers heating and cooling energy to the incoming fresh air.

¹ For qualified buyers. See dealer for details.

² The limited warranty period is five years on parts if not registered within 90 days. Jurisdictions where warranty benefits are not conditioned on registration will automatically receive a 10-year parts limited warranty. See warranty certificate at Bryant.com for complete details and restrictions.

³ When connected to the Internet through a Wi-Fi® network.

⁴ The Evolution™ air purifier has demonstrated effectiveness against the murine coronavirus, based on third-party testing (2020) showing a >99% inactivation, which is a virus similar to the human novel coronavirus (SARS-CoV-2) that causes COVID-19. Therefore, the Evolution air purifier can be expected to be effective against SARS-CoV-2 when used in accordance with its directions for use. Third-party testing (2012, 2007) also shows ≥99% inactivation for the type of virus that causes common colds, Streptococcus pyogenes and human influenza. Airborne particles must flow through your HVAC system and be trapped by the MERV 15 Evolution filter to be inactivated at 99%. Learn how it works at Bryant.com/purifier.

BRYANT COOLING SOLUTIONS

There is a Bryant product for almost any heating and cooling need or budget.

Only your Bryant dealer can help you decide which is right for you.
